

REPORT OF EXAMINATION OF ALASKA SALMON STREAM

DEPARTMENT OF COMMERCE
BUREAU OF FISHERIES

Name of stream Still Harbor Sockeye Stream. Date examined July - August.

Location Still Harbor, Whale Bay Baranof Island.

Approximate length 25 feet Width 20 feet 4 to 8 inches.

Condition and stage (Whether clear, high, low, etc.) Nearly dry most of the time, except after rain. Clear with light brownish tint.

Lakes, if any, size, character, and whether accessible from sea.
One lake 1000 x 200 feet, accessible after rain only.

Salmon run (heavy, light, average, etc.) Run started about 21st of July and was running when I left 12th of August.

Date and duration of run of each species.

Estimated number of each kind of salmon on spawning beds or in stream.
About 2200 on the ground which went in the lake.

Former size of runs of each species and evidence of depletion, if any. Still Harbor should be closed absolutely. Fishermen tell me that they caught more in one day a few years ago, than there are in the whole season now.

Natural barriers and whether removable. None except water too low most of time.

Where markers are placed 500 yards from stream. This stream is about 100 yards from the Coho stream.

Remarks, sketches, etc.

Swan Swanson Aasen
Stream Watchman, Whale Bay.
